Saturday, October 27th, 2018**

8:30am-9:00am Registration

9:00am- 12:00 pm Missouri Department of Public Health Workshop

Title: Is the Typical BSP up to Par? Presenting Elements for a Better BSP.

Presenters: Rita Cooper, Melantha Witherspoon, Lucas Evans and Teresa Rodgers

Learning Objectives: This workshop will allow attendees to review a checklist of necessary elements of a behavior support plan according to best practice, analyze sample BSPs and identify missing elements to their own BSPs, and will discuss barriers to including critical behavior support plans.

Abstract: Missouri's DD system has just completed year 2 of professional review committee process and will be sharing data regarding common elements present and missing in behavior support plans. Attendees will learn best practice and ethical standards for behavior support plans and practice using a checklist to evaluate their own and sample behavior support plans. Additionally, suggestions for conceptualizing the strategies related to function of behavior and development of alternative/additional skills will be discussed. The intended outcome is that attendees will improve that quality of services they provide. It is strongly suggested that participants bring a redacted, sample behavior support plan that they have written.

Pre-registration: \$10 for attendance OR \$40 for attendance plus CEU's

On-Site Registration: \$25 for attendance OR \$55 for attendance plus CEU's

Registration will be available at the KansABA website: <http://www.kansaba.org>
